# MEMPHIS WELCOMES YOU TO THE 1992 SfAA MEETINGS PRELIMINARY PROGRAM: SOME HIGHLIGHTS

We are enormously pleased with the enthusiastic response to the 1992 SfAA program. The rich offerings reflect your commitment to participation. Following SfAA tradition, the program committee has combined several types of activities which nicely complement each other. Formal symposia, poster sessions, awards ceremonies and receptions, committee meetings, panel discussions, forums, workshops, excursions to anthropological sites, and tours offer something for everyone. We have tried to balance the seriousness of the formal program with interesting—but still serious—SfAA-Organized Excursions and Workshops. At the same time, we will offer you an opportunity to take an organized tour. Or you may very well want to explore the city, take a riverboat cruise on the Mississippi River, or find music on Beale Street on your own time and in your own way. We will provide lots of helpful information about restaurants and music after you arrive in Memphis.

We are especially pleased to present the *first SfAA research poster session* in which we will recognize the research of *graduate students* in applied anthropology program. Departments were invited to nominate a student from their master and doctoral programs; as a result, twenty students from fifteen departments will exhibit their work on Saturday morning in the Mezzanine of the Peabody Hotel. Please set aside some time between 9:00 AM and 1:00 PM to see their work.

Through the course of the meeting, we will be honoring four anthropologists in special symposia: *M. Margaret Clark, Robert A. Hackenberg, Marion Pearsall, and Demetri B. Shimkin*. The winner of the second annual *Peter Kong-Ming New Student Award* will be recognized on Thursday. On Friday evening the Malinowski Award will be presented to *M. Margaret Clark* at the Awards Ceremony and Reception. We happily anticipate her address. And for the first time, a Career Award will be given at the meetings: *William Foote Whyte* will receive this award on Saturday, at which time he will be available to talk informally with students and faculty.

When we look at the overall program, it is clear that participants have taken into account the theme of the meeting—Regional Research and Development: Domestic and International Perspectives—in planning symposia. Those regions which are explicitly represented in sessions include Alaska, the Northern Plains, the High Plains, Southern California, the Mid-South, Washington, D.C., Latin America, Northern Andes, Central and Eastern Europe, India, Bangladesh, China, Africa, and Oceania. It is worth noting that on Saturday we will have an opportunity to hear scholars from the People's Republic of China and American China scholars present papers and discuss issues regarding "facilitating exchanges with China" and "recent anthropological work in China."

Spurred on by the very productive series of sessions in the 1991 meeting in Charleston, we have organized a *disaster research symposium* consisting of four sessions and an excursion to the Memphis State University Center for Earthquake Research and Information. Perhaps not surprisingly, *medical anthropology* is extremely visible in the program, with three *AIDS symposia* and thirteen other medical anthropology symposia. Issues regarding *anthropology and gender* are also well represented: four organized symposia, two workshops organized by the Memphis State Center for Research on Women, and an exhibit of the Research Clearinghouse on Women of Color and Southern Women. Please take a close look at the preliminary program and the notes which precede it. Now is the time to make necessary changes, as well as any important additions. It is also a good time for you to sign up for Workshops and SfAA-Organized Excursions. Reservations should be made as soon as possible at the Peabody Hotel. You will be hearing from us again in February with details about the tours (organized by Unique Tours) and some more touristic information about Memphis.

In case you can't tell, we are looking forward to seeing you here in Memphis.

Linda A. Bennett, 1992 Program Chair

### ANTHROPOLOGICAL PRACTITIONERS AT WORK IN MEMPHIS NEIGHBORHOODS

Join a local practitioner and a renowned anthropologist in a Memphis Neighborhood to discuss:

- (1) **AGING**—Margaret Clark and Ron Register  
*ORANGE MOUND*

This neighborhood, first a plantation, then the first planned African-American subdivision in the country, is now the focus of a major Ford Foundation project under the direction of a local anthropologist.

- (2) **HISTORIC PRESERVATION**—Setha Low and Janis Foster  
*EVERGREEN HISTORIC DISTRICT*

A 1910 vintage streetcar suburb, nearly paved over by an expressway in the 1960s, Evergreen Historic District is knit back together by citizen action and a rediscovery of the past.

- (3) **NUTRITION**—Ann McElroy and Ros Cottrell  
*BINGHAMPTON*

Formerly a rural community outside of Memphis, this neighborhood is now effectively addressing years of neglect through the help of a local anthropologist with an innovative nutrition program.

- (4) **ECONOMIC DEVELOPMENT**—Robert Rotenberg and Tim Bolding  
*GREENLAW*

The first suburb in Memphis, now in the shadow of the Pyramid, Greenlaw joins with a local anthropologist, 3 banks and the city to create a new future.

Organized by anthropologists Janis Foster and Stan Hyland, the excursion will begin with a 20 minute slide overview of Memphis Neighborhoods at the Peabody Hotel presented by Stan Hyland (open to all SfAA meeting registrants). Vans will proceed to the neighborhood of your choice for wine (or other drink) and cheese and lively informal discussion of issues affecting neighborhood life.

The number of participants must be limited to 12 for each neighborhood. The van will bring participants back to the hotel by 8:00 or drop them off at a restaurant. The excursion offers a great chance to get out of the hotel and chat with colleagues.
